

NC 1295 Fly

JEANNEAU NC · FLYBRIDGE CRUISER

Flagship of Jeanneau's NC line — the 1095 platform stretched to 41 feet with a full flybridge for entertaining and extended cruising.

LOA	BEAM	DRAFT	CABINS	SLEEPS	ENGINES
41'2"	12'6"	2'6"	3	6–8	3×300 hp

Overview

Built on the proven NC 1095 hull and stretched to just over 41 feet, the NC 1295 Fly adds a full flybridge with its own helm station on top of the standard NC accommodations. Triple 300 hp Yamaha outboards give it real offshore range and speed for a boat this size, with the wide chine flats keeping spray down at cruising speed.

Below deck, three private staterooms (all with doors) include a forward master with a larger-than-queen berth and two mirrored guest cabins whose twin berths slide together into doubles. The salon feels larger than its footprint thanks to an asymmetrical layout — a wide, rail-protected walkway to starboard and a narrower one to port.

Standard Highlights

- Flybridge with convertible double bench — sundeck, lounge, or dining table
- Electrically controlled starboard-side terrace for swimming and boarding
- Three integrated sun loungers on the forward deck
- Master stateroom with en suite head and stall shower
- Sliding door at the helm for quick deck access
- Joystick docking available with the triple-outboard setup

Why it fits Chesapeake Bay owners: the flybridge helm gives commanding sightlines for reading Bay shoals, and the triple-outboard package leaves a shallower running draft than comparable inboard flybridge cruisers this size.

Full Specifications

Length Overall (LOA)	41'2" / 12.56 m
Beam	12'6" / 3.81 m
Draft	2'6" / 0.76 m
Displacement	18,036 lb / 8,181 kg
Fuel Capacity	314 gal / 1,174 L
Water Capacity	106 gal / 400 L
Standard Engines	3× Yamaha F300 (900 hp total)
Cabins	3
Heads	2
Max Sleeping Capacity	6–8
Designer	Centkowski & Denert Design Studio
Builder	Jeanneau

Good to Know

- Built in Poland; hull is a modified-V planing design
- Cruise ~30 knots, top speed ~35 knots
- SEANAPPS remote monitoring standard
